E-mail: yihara@eco-sculpture.org Map <https://www.google.co.jp/maps/preview?q=34.985653,134.660880>

3 years have passed since the beginning of this sculpture, which is based on standing Japanese cypress that grows naturally and slowly in country side forest. Finally, a kind of image has been formed, so I would like you to see, which I have planned a bit unusual personal long-run exhibition.

There are public auto-camping and log house accommodations around here. The environment is full of nature and with good view. Please have a look at art and contest in the forest.

I would like to give you some information.
